EXAMINE YOUR DATES.

We request each of our subscribers to examine the address on his paper, and particularly to observe the date upon it. This date shows the time up to which the paper has been paid for. Many of our subscribers will thus see that they have paid in advance; but there are many others who will discover that they have not.

BASE BALL.—Last Monday afternoon the Midway Base Ball Club came over to Orangeburg to monkey with our club and got paralyzed. Only seven innings was played, during which the Orangeburg boys made thirty-two runs to the Midway boy's one. Our visitors did the best they could and took their defeat philosophically. We hope they will call again.

THE NAVAL CADETSHIP.—The following named gentlemen have been selected by the Hon. Samuel Dibble to act as a board of examiners in the competitive examination for a naval cadetship, to be held in Charleston on July 29: H. P. Archer for Charleston county, George G. Leland for Berkeley, H. G. Sheridan for Orangeburg, E. B. Bellinger for Colleton, and Rev. L. E. Bugby for Lexington.

LAWN PARTY AT FELDERVILLE.—One of the prettiest and sweetest young ladies of the Felderville section of our County requests us to say that there will be a lawn party at Felderville for the benefit of the Antioch Baptist Church on the 29th instant. The cause is a good one, and we hope the young ladies who have the matter in charge will meet with a generous patronage. The public are cordially invited to attend.

FARMERS' MEETING.—Capt. B. R. Tillman addressed a large and enthusiastic meeting of farmers at Jerusalem Church last Friday. We were in hopes that some one would send us a full account of the meeting, but they have not, and so we can't say what was done in detail. The meeting endorsed the farmers' movement and Capt. Tillman. After the speaking, a splendid dinner was served and everybody seemed to enjoy the occasion.

NO GOOD.—One sky gazer has already scored three comets this season. But what do they amount to? They are no practical good. A hundred score of such do not amount to a single one of the kind that comes within eye distance of the earth. In such a comet there is use. You can take your best girl seven nights a week to gaze at it, and if you have rounded the blissful period into the home stretch of matrimony, there is nothing better than a comet for an explanation why you are out so late.

THANKS, BROTHER, THANKS.—The Sumter Advance pays our paper this compliment: "THE ORANGEBURG TIMES AND DEMOCRAT, is certainly made up by a practical printer, who knows his business. It is one of the best and neatest weeklies in the State. Orangeburg should be proud of such a paper and it should be liberally supported." For the information of our Brother we would state that this paper is made up under the immediate supervision of its editor, who is a practical printer.

A NEW WAY TO CATCH COONS.—The following article from an exchange has some truth in it, and for the benefit of those who may like coons we publish it: As corn will soon be large enough for the coons to bother it, and as you frequently give information gratis, I write this for the benefit of my brother farmers. Last year I went to a drug store to buy strichnine for use to kill coons in the field, but the druggist made a mistake and put up morphine, all of which I did not know until I got ready to use; so I used it, and the next morning the field was full of coons all fast asleep.

THE WATERMELON CROP.—The shipment of watermelons North via the South Carolina Railway and its railroad and steamship connections has fairly commenced. The business done in this line of freight traffic last year was very large, owing to the favorable season and consequent large yield of the vines. Some doubts, however, and very grave ones, are entertained as to the amount estimated for the present crop, some of the best informed farmers in Barnwell County, however, say that the constant rains have had the effect of materially affecting the proper development of the melons. The watermelon belt has been severely visited in this way, and at a fair estimate not less than one-fourth of the crop has been or will be destroyed.

IN A BAD FIX.—A correspondent writing from Congaree says: Although the time for corn planting will be expired before the present frost that is now over our river lands will go down, our river planters seem to be quite merry, and does not take our losses to heart as one would think they might. There are some among us that have not a grain of corn planted on the up land and on account of losing a part of their last year's crop in the heavy freshet of May will not have corn to supply their wants longer than the first of January, 1887; their are others that planted slightly on the up land and will make only enough to carry them a part of next year, while others have planted sufficient to make their supplies. This rainy year leaves us swamped in a critical condition, and we are dependent on a pea and cat crop to keep us from invading Western corn cribs.

PETERSON'S MAGAZINE for August opens with a beautiful steel engraving, "Morning Among the Mountains," followed by a double-size colored fashion-plate, and this by a colored pattern for embroidery. In addition, there are some fifty wood-cuts of fashions, work-table patterns, etc. The contributors to the number are Mrs. Ann S. Stephens, Frank Lee Benedict, A. M. Ewell, Emily Lennox, and the author of "The Corsair's Captives," besides others, in poetry and prose, equally eminent. We do not see how any lady can do without this magazine. Everything it gives, from its steel engravings and original stories down to its fashions and work-table patterns, is the best of its kind. Terms, only two dollars a year. Great deductions are made to clubs. Specimens sent gratis, if written for, to those wishing to get up clubs. Address Charles J. Peterson, 306 Chestnut St., Philadelphia, Pa.

OUR BREVITY BASKET.

Filled With Brief Mention of Many Minor Events of the Week.

A desirable house to rent on Russell Street. See notice in another column. Candidates give us your V and we will put your names before the people of the county.

Mr. D. F. Arthur has secured a fine school at Maplewood, S. C. We wish him success.

This drow is no doubt providential, but it takes the grace of God to make cotton planters see it.

On account of the inclemency of the weather all the town churches were closed last Sunday night.

What young man or young lady from our county will capture the Peabody Scholarship this year?

God's service is not merely in the church meeting, or in the home closet, but in every legitimate undertaking of life.

Marion County has adopted the primary system of nominating candidates. Orangeburg will follow suit on the 22d instant.

Western trade is reported to be picking up because of "a sharp demand for provisions to go South." Poor South, that cannot feed herself!

People who take Capt. B. R. Tillman, the leader of the farmers' movement, for a crank mistake their man. We think he has a level head.

We are indebted to Mr. F. O. Fahey, of Rowesville, for a box of delicious peaches. They were very fine and we enjoyed them very much.

Correspondents who want their articles to appear in this paper must have them at the office by Monday morning, otherwise they will have to be omitted.

We are indebted to Mr. Jos. Watt Pooser, Principal of Union Academy at Connors, for an invitation to attend a social of the school to-morrow evening.

Mr. P. R. Pearson, of the Fork, sent us a cabbage last Monday that weighed ten pounds and was as fine as any that we have ever seen. It was raised by Mr. Pearson.

We think the year 1886 can truly be entered upon the record as the "rainy year," when the losses to the farmers were equally as great as those caused by the terrible drouth of 1881.

The boys and girls of our town are now enjoying vacation. We hope they will make the most of it, and accumulate the roses upon their cheeks before the next term of school begins.

THE TIMES AND DEMOCRAT has never opposed the farmers' movement, but we have protested and will continue to protest, against its taking the place of the Democratic party.

Politics is growing lively. Candidates who desire to appear before the public should be announced at once, as it is not likely that there will be a long campaign. Slates are already being made up. Only \$5.

We believe, from what we can see and learn by inquiry, that more cigarettes are smoked by the little boys of Orangeburg—boys from 10 to 15 years of age—than are used by the men. A bad outlook for the rising generation.

Our thanks are tendered our young friend, Cadet Alex N. Brunson, for an invitation to attend the anniversary exercises of the Calliopean and Polytechnic Literary Societies of the South Carolina Military Academy, July 26 and 27.

If our farmers want an agricultural college the only way to secure it is to elect a Legislature this fall that will make the necessary appropriation to inaugurate it. Before you elect your Representatives, make them define themselves on this important matter.

Capt. J. H. Felder, at the meeting at Jerusalem Church, last Thursday announced that he would not be a candidate for the Legislature. This will be a disappointment to the friends of Capt. Felder, as they fully expected him to be one of our next Representatives.

There is more cholera, says the Springfield Union, in a pint of peanuts than in a dozen good, ripe watermelons. The editor of the Union must be a colored brother. A man of no other race would have dared to experiment with a pint of peanuts and twelve watermelons at the same time.

The latest device for swindling farmers is a powder sold by perambulating agents as "peloneum," and which is warranted to keep fruit or green stuff fresh for any length of time. The farmer who purchases it, however, loses a large portion of his greenness with great forthrightness.

We regret exceedingly that on account of an indisposition we were unable to attend the picnic at Jamison last Saturday. The kind offer of our friend, Mr. Jeremiah Riley, to take us in his carriage had to be reluctantly declined. His kindness, however, is none the less appreciated.

RUN OFF ON THE SOUTH CAROLINA RAILWAY.—The train due here from Charleston at 9:15 A. M. last Monday did not reach the city until about 11 P. M. The cause of the delay was ascertained to be the derailing of the train just before reaching Branchville. The drivers of the engine and all the cars left the track and were carried about a hundred yards on the cross-ties, but no damage was done to train or passengers. The latter were transferred to the down train, and the delay was caused by the transfer.

MARRIED.—Mr. Geo. V. Zeigler and Miss Minnie Vince were married last Tuesday evening and left immediately for the North on a bridal trip. We wish our young friends many long years of happy married life.

Fine Grove Democratic Club.

Pine Grove Township Democratic Club met to day for re-organization and election of delegates to County Convention. The former officers were all re-elected: F. D. Bates, President; J. E. Jones, 1st Vice-President; G. J. Zeigler, 2d Vice-President; B. O. Evans, Secretary; B. H. Zeigler, Treasurer; J. E. Jones, Executive Member. The roll was called and revised and the following gentlemen were elected delegates to County Convention: F. D. Bates, G. J. Zeigler, B. O. Evans, J. A. M. Haigler, W. A. Fogle, Sr., James H. Shirer, Sr., G. W. Fahey, J. E. Jones, J. W. Mack and F. J. Felder. Alternates, J. S. Wiles, H. J. Ross, H. N. Carr, J. L. Mack and J. C. Stoudermire. The primary plan of election was adopted by the club and the delegates were instructed to vote for same at the County Convention.

Upon the adjournment of the Democratic Club, a Farmers Club was immediately organized. Every member of the Democratic Club present joined with one exception. Considerable enthusiasm prevails in this section over the Farmers' Movement, especially since Capt. Tillman's speech a few days ago. The farmers for once are awaking to their own interests as well as the welfare of the country at large and are determined to make their power felt. Our meeting was perfectly harmonious, no jarring or friction about it, every one present seemed in the best of spirits and seem fired with zeal for the work before them.

TRINITY SCHOOL.—The closing exercises of this excellent school, situated about four miles northeast of Knott's Mill, took place on last Thursday night in the presence of a large concourse of people. The school is presided over by Mr. B. W. Getsinger, a worthy young man from Barnwell County, who is well known in our town as a student of "Mellichamp's High School," where he has been very laudably endeavoring to educate himself as time and means permit. The exercises on Thursday night were in the highest degree creditable both to teacher and pupils. The programme consisted of dialogues, speeches and singing, and all the boys and girls did their parts well, showing their careful training, and many exhibiting marked evidences of oratorical power. The spacious building was tastefully decorated with flowers, mottoes and evergreens. The excellent music of the occasion was furnished by Mrs. G. W. Dannelly, assisted by the children of the school, and added greatly to the success of the entertainment. The exhibition was kept up to a late hour when everybody went home well pleased with what was seen and heard. The next morning came the picnic of the school, and at an early hour, an even larger crowd assembled than on the evening before. At 10 o'clock the building was filled to overflowing by persons anxiously waiting to hear the speakers who were chosen to address the meeting. Rev. Mr. Greer, of the Methodist Church, who was invited, was unfortunately prevented from coming, but able and eloquent addresses were made on education by Rev. J. J. Getsinger and our School Commissioner who were listened to with marked interest and enthusiasm. It is said that there is a manifest awakening of the people of the community on this important subject. A number of prizes for elocution, penmanship and class standing were next awarded to the successful competitors by Maj. Geo. W. Dannelly in a neat and appropriate address. As an evidence of the appreciation of the audience, a bouquet was then presented to Mrs. G. W. Dannelly for her valuable contribution of music, and was most gracefully received by this lady. A sumptuous dinner was next served in good old Bull Swamp style, and it is unnecessary to say that everybody was well pleased with this part of the programme. Mr. Getsinger deserves great credit for what he has accomplished in this community. He took the school when it was exceedingly small, and he has already built it up to over fifty pupils, some coming from a distance and boarding in the community. He has now taught for two sessions, and has given entire satisfaction, the patrons being anxious to keep him as long as they can. Messrs. A. J. Hydrick and N. A. Whetstone are the energetic and efficient Trustees of this school, and we hope they may succeed in keeping the torch of education always burning in their neighborhood.

About seven o'clock Tuesday evening as a train on the Pennsylvania railroad was approaching Englefield, two men were fighting on the track, regardless of their danger. As the train neared them, one of the bystanders, whose name is unknown, rushed in and succeeded in pulling the combatants from the track, but was himself struck by the engine and so badly injured that he died shortly after his admission to the hospital.

T. C. Hubbell will send for all Illustrated and Daily Papers, also the Charleston Daily Papers which persons can be supplied who live in the city at 20 cents per week.

A Few Words About Primary.

Editor Times and Democrat: As the various Democratic clubs are holding their meetings for the purpose of re-organizing and electing delegates to the County Convention, we beg space in your columns for a few thoughts concerning the method of making nominations for County and State officers, and a few other matters. The call for the convention requests the clubs to vote on the question of "primary" or "convention" plan, but fails to make any distinction as to the two varieties of the primary. It should be borne in mind that the majority plan requires two elections, and compels a candidate to obtain more than half of all the votes cast, ere he can be nominated; while the plurality plan requires that the candidate receiving the highest number of votes shall be declared the nominee, and only one election is necessary. There is this strange objection to the last mentioned plan, that there is no safe guard against two or three strong voting precincts combining on a "slate" just on the eve of election, too late for any information of it to reach remote parts of the county, and thus these favored localities secure all the offices. With the majority plan two elections are necessary, but it is for the safer method. When a man has been chosen by more than half the Democratic voters of his county there would be no reasonable grounds for dissatisfaction. The primary election need not consume a whole day, as the law governing State elections does not reach the primary, and it is governed by such rules as the Convention or Executive Committee may see fit to make. All the votes could be easily taken in a half day, and the voters would be more than repaid for the extra afternoon by the general results obtained. As one who has seen both majority and plurality, tried earnestly to advise the majority plan. While the primary is admirably adapted to making county nominations, its extension to State nominations is of doubtful propriety. Candidates for State offices could not have time to canvass the whole State, going into the "byways and hedges" of every county. They might visit every county seat, but the people living thirty miles in the country would hardly go to see or hear them, hence the nominations might as well be made by mass meetings called at the various county towns for that purpose, and would not give the satisfaction derived from the present method. Let all the clubs instruct delegates to vote for majority species of the primary plan for county nominations, but adhere to the convention plan for State nominations, then will we have harmony in the party, and the liveliest campaign that Orangeburg has known since the days of "good stealing in South Carolina." INDEX.

MT. CARMEL SUNDAY SCHOOL.—The Tenth Anniversary of this Sunday School was celebrated in the Baptist Church at Jamison on last Saturday. The Methodist Sunday School of the place, by invitation, united in the celebration, and several other Sunday schools of the adjoining communities attended, making the occasion a very interesting one. So large a crowd assembled at an early hour that all could not be accommodated in the church. The beautiful little church was most tastefully decorated, and everything looked as charming as a Mayday morn. At 10 o'clock, Superintendent R. H. Riley called the meeting to order. The exercises were opened with a fervent prayer by Mr. L. B. Smith, the Superintendent of the Methodist Sunday School. Speeches and dialogues appropriate to the occasion were then rendered by the children of the Baptist and Methodist Sunday schools in most excellent style. They showed good taste and preparation on the part of all concerned. The whole programme was enlivened with delightful and soul-stirring music under the leadership of Mr. Emanuel Rickenbaker. After the speaking by the little folks, speeches were in order from the children of older growth. Rev. J. E. Curisile, of the Methodist Church of Orangeburg was invited, but, to the disappointment of many, was prevented from coming. Interesting addresses were, however, made by Rev. A. P. Norris, S. R. Mellichamp, Esq., Mr. John Barrett and others, which commanded the attention of the large audience, and were well calculated to do much good. After the speaking, all present were invited to the tables that were laid in the grove and participated heartily of the bountiful provision for the inner man. Dinner being over the remainder of the afternoon was happily spent in pleasant and friendly conversation. The whole affair was a complete success, and Superintendent Riley and all others concerned have reason to rejoice in what has been accomplished.

Assisting Nature a Little Bit.

When the resources of Nature have become retarded, no matter from what cause, it is then quite time to help the Liver and Spleen, and other organs, to perform their thorough duty—or we shall soon be quite ill. In such cases there is no more natural remedy than a mild cathartic, one which will be sure to perform its duty without injuring the system in the least. Such, let us say in all candor, is Simmons' Hepatic Compound. It will gently move the bowels, without irritating them in the least; when the medicine works, the bowels are soothed and healed like a charm—yet the medicine is more effective than Calomel; one of the principal ingredients possess all the good qualities of that poisonous drug, without any of its constituents. A dose of Simmons' Hepatic Compound every night on going to bed, will infallibly restore health. Testimony of the highest consideration from every portion of the country, and from all classes of people, abundantly substantiate this fact. The importance of this treatment cannot be over-estimated, and it should be tried by all means.

TO THE LADIES.—Mrs. L. M. Smoak begs to inform her friends and the public generally that her stock of Millinery and Fancy Goods this season is the largest and handsomest she has ever offered. She receives a great variety of flowers and novelties all through the season, and all orders entrusted to her will receive prompt and careful attention. Prices to suit the times.

Intending to have this Fall a larger variety and stock than ever, of fancy goods of all kinds, I desire in order to make room and get the money, to sell anything in the way of Albums, Desks, Workboxes, Music, Folios, Books, Pictures, Toys and Dolls at a sacrifice. Don't miss this chance of buying beautiful goods and presents for less than cost at Jos. Eros' Bazaar.
